

CAA How to Drive Curriculum

STUDENT ASSIGNMENT

Environmental Issues

Many factors lead to climate change. The emphases on automobile use and the burning of fossil fuels have targeted everyday drivers as a major contributor to this problem.

This assignment will help you to understand the individuals role in reducing the impact automobiles have on global warming.

You will research a media source and bring to class a copy of your findings as it pertains to the automobile and the environment.

You will also come up with at least two driver controlled solutions to this problem.

This assignment is worth 5 marks and your findings must be presented in Session Eight.

HOW *to* DRIVE
